Note: "First year" basic membership is free (at present)

You **must** reserve for Dinner.

Topic

"Thirteenth Annual Industry Education Forum"

Secondary and Post-Secondary Student Presentations

We continue with our focus on assisting the High School Welding Programs and students by providing learning resources, equipment, supplies and financial assistance to fifteen area schools from Burlington, Hamilton, Brantford and the Niagara Peninsula.

There will be many project displays showcasing the talents of these young high school students with presentations on welding related topics from current and former High School and College students. We will present a speaker's gift to each participating student and issue a \$50 gift card each participating high school who has been selected as an outstanding achiever in a welding program. Also, we will be raffling off some of the student projects, which is always a very popular activity.

This year we will also have displays from industry as well as education. Participating companies will be: CWA National, as well as others

The CWB Group recently announced a rebranding strategy to position our organization for future development and growth. Dan Tadic's presentation will provide reasoning for the change and how it will positively impact our industry's growth in the future. Last year the CWB Group made a very significant investment in a 5-year research study to find a better way to engage welding students and employers in apprenticeship training. The audience will be invited to participate in discussion following the presentation

Last but not least Lincoln Electric will have on hand their Virtual Welding Cell the VRTEX360!
See a demonstration on YouTube: http://www.youtube.com/watch?v=n9mNFpv_mdw

Please register by contacting **Franco Piccoli** (905) 317-6543 by Friday March 30, 2018

Wednesday October 3/2018

Topic: To be announced!

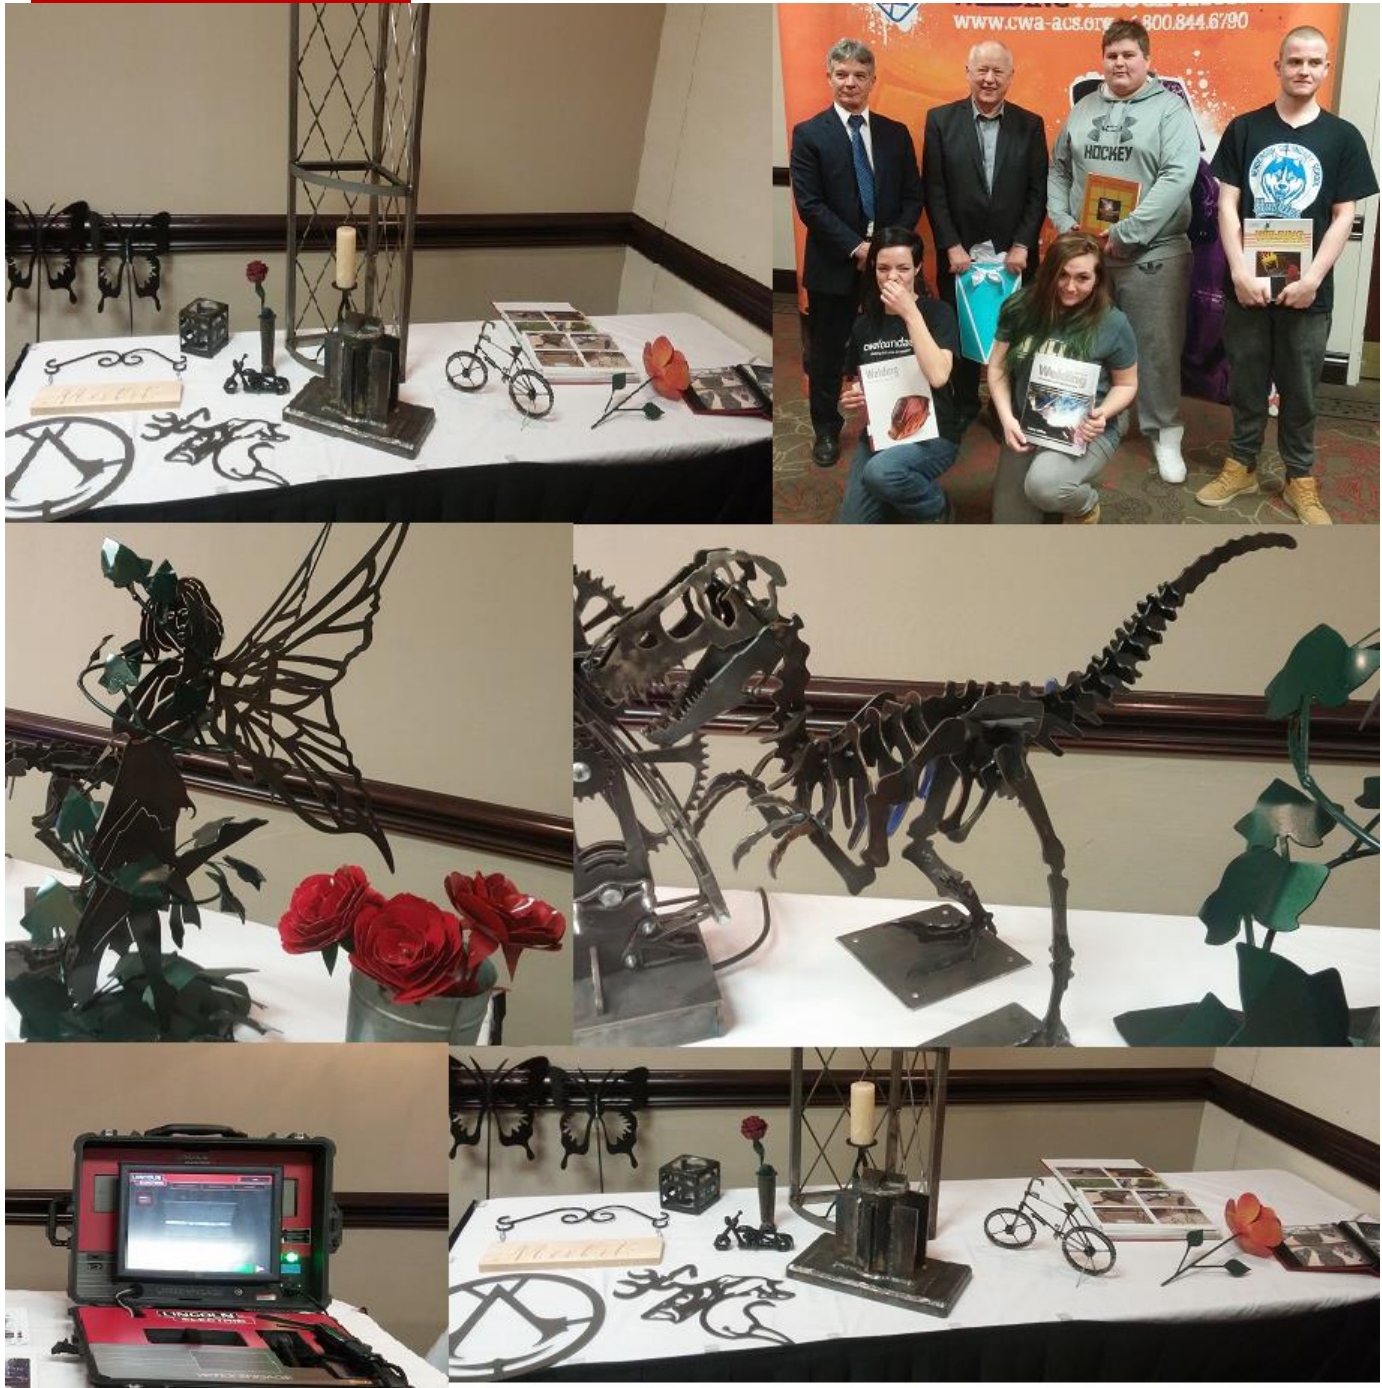

Contact any Hamilton Chapter Board Member for Tickets.

Note! You must reserve in advance
