## Topic

### “Nineteenth Annual Industry Education Forum”

#### Secondary and Post-Secondary Student Presentations

We continue with our focus on assisting the High School Welding Programs and students by providing learning resources, equipment, supplies and financial assistance up to fifteen area schools from Burlington, Hamilton, Brantford and the Niagara Peninsula.

There will be many project displays showcasing the talents of these young high school students (see second page) with presentations on welding related topics from current and former High School and College students. We will present a speaker’s gift to each participating student and issue a \$50 gift card each participating high school who has been selected as an outstanding achiever in a welding program. Also, we will be raffling off some of the student projects, which is always a very popular activity.

We are hoping to have 2 or 3 high school students, along with 2 or 3 college students to briefly speak and highlight their journey in welding education.

There will be display tables setup from Walter’s Welding, and Cubes Steel.

This is always the pinnacle event of our season.
