Tour of

Tigercat®

Tigercat specializes in the design and manufacture of premium quality forest harvesting systems, specialized off-road industrial machines and material processing equipment.

Tigercat has decades of experience in the forest harvesting sector with the expertise to design complex structural, mechanical, hydraulic and electronic systems that perform every day in extreme and adverse conditions. Tigercat is taking this vast experience and using it to expand into other sectors that require tough, reliable machines to take on demanding duty cycles in other niche industrial applications.
